## Innovative Patents (1960)

Secured a groundbreaking patent for oil-lubricated closed-loop shaft lines, revolutionizing marine propulsion technology.

## Strategic Acquisition (1986)

Acquired by De Vries, a prestigious member of Feadship, marking a new chapter in the company's legacy.

## Superstructure Focus (1986)

Shifted focus to crafting sophisticated superstructures and high-end equipment, enhancing yacht design and functionality.

## Equipment Expansion (1995)

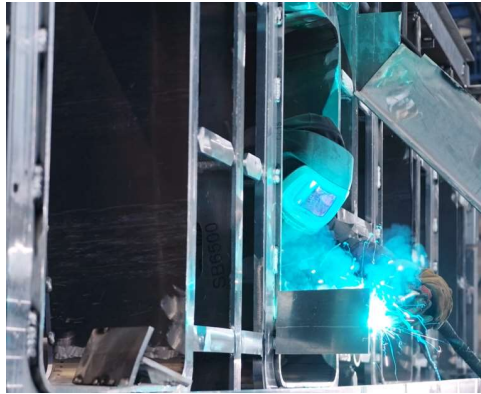

Responding to the trend of larger yachts, expanded product offerings to include more specialized yacht equipment.

## Refined Focus (2010)

Refined business strategy to concentrate exclusively on advanced shaft lines and state-of-the-art yacht equipment.

## Expert Engineers

Our team of over 110 includes 20 skilled design engineers, 30 certified welders, and 40 mechanical engineers, ensuring top-tier expertise and precision in every project.

## In-house Training

We provide comprehensive in-house training, with new recruits working four days and studying one day a week, guaranteeing 100% job placement upon graduation.

## Global Service

With service locations in Barcelona and West Palm Beach, our locally trained mechanical engineers offer exceptional maintenance and support for Akerboom equipment worldwide.

## Long-standing Expertise

40% of our production team started through our rigorous in-house training program, embodying our commitment to cultivating long-term craftsmanship and innovation.

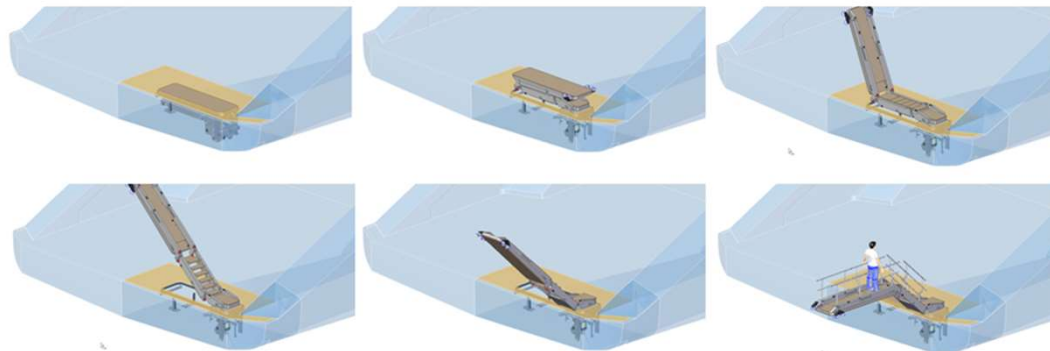

Innovation is the heartbeat of Akerboom Yacht Equipment, driving us to continually enhance our bespoke yacht solutions with cutting-edge design and advanced customization

COMPANY INFO 2024

AKERBOOM@AYEHOLLAND.NL

Our latest innovation:  
the pop-up gangway.  
Inspired by the trend of  
open beach clubs and  
hull extensions, we've  
engineered this  
groundbreaking solution  
to enhance yacht  
accessibility with smart  
space usage

Our comprehensive service & refits ensure your yacht remains in reliable condition, supported by our own expert teams in Barcelona and West Palm Beach, delivering top-tier maintenance and innovative upgrades globally

## Gangways

Our gangways exemplify Akerboom's commitment to innovation and quality, setting the standard in yacht accessibility.

## Custom Solutions

Tailored gangway solutions designed to perfectly fit the unique requirements of each yacht, ensuring optimal integration.

## Proven in Projects

For every solution, we have numerous reference projects showcasing our expertise and successful implementations.

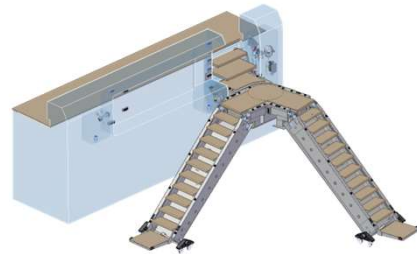

## Flush Deck Design

Always foldable to ensure a seamless and flush deck, enhancing both aesthetics and functionality.

## Best Materials

Constructed from aluminum for superior stiffness and minimal bouncing, providing a stable and secure boarding experience.

## Boarding Ladders & Swim Stairs

Akerboom's boarding ladders and swim stairs are versatile, offering multiple configurations and styles to fit seamlessly with any yacht's architecture and enhance the boarding experience.

### Proven Reliability

Crafted using reliable and proven technology, our boarding ladders and swim stairs deliver consistent and dependable performance in every use.

### Custom Construction

Each ladder and stair is custom built from standard modules, allowing for tailored solutions that meet the specific needs of each yacht while maintaining high-quality standards.

### Innovative Design

Our boarding ladders and swim stairs feature innovative designs that prioritize safety, ease of use, and aesthetic integration with the yacht's overall design.

## Platforms & Doors & Hatches

Akerboom's Platforms, Doors & Hatches are meticulously designed to blend seamlessly with the yacht's architecture, delivering both high functionality and visual harmony.

## Cranes & Specials

Akerboom's Cranes & Specials are uniquely crafted one-offs, showcasing our ability to deliver bespoke, innovative solutions tailored to the specific needs and visions of each yacht.

AKERBOOM@AYEHOLLAND.NL

## Hydraulics & Controls

Akerboom's Hydraulics & Controls are expertly designed to provide precise, smooth and reliable operation.

## Efficient Operation

Maximize operational efficiency with just one person required for seamless control.

## Safety First

Ensure top-notch safety, ensuring that the remote display does not provide control access.

## Remote Monitoring

Access equipment status, full I/O readings, and error diagnostics remotely on your own devices.

## Flexible for Refits

Enjoy maximum adaptability in hardware and control to upgrade your installed equipment during refit.
