

AKERBOOM
yacht equipment

History

**Founded in 1860,
Akerboom Yacht
Equipment brings a rich
heritage of Dutch
shipbuilding expertise
to the creation of
exceptional hydraulic
equipment for
superyachts.**

Innovative Patents (1960)

Secured a groundbreaking patent for oil-lubricated closed-loop shaft lines, revolutionizing marine propulsion technology.

Strategic Acquisition (1986)

Acquired by De Vries, a prestigious member of Feadship, marking a new chapter in the company's legacy.

Superstructure Focus (1986)

Shifted focus to crafting sophisticated superstructures and high end equipment, enhancing yacht design and functionality

Yacht Equipment Expansion (1995)

Responding to the trend of larger yachts, expanded product offerings to include more specialized yacht equipment.

Refined Focus (2010)

Refined business strategy to concentrate exclusively on advanced shaft lines and state-of-the-art yacht equipment.

Expertise

**Akerboom Yacht
Equipment has set the
standard in custom
yacht equipment by
combining modular
design and smart
customization to
deliver superior,
bespoke solutions that
meet the unique needs
of every client.**

Gangways

Our gangways exemplify Akerboom's commitment to innovation and quality, setting the standard in yacht accessibility.

Custom Solutions

Tailored gangway solutions designed to perfectly fit the unique requirements of each yacht, ensuring optimal integration.

Proven Projects

For every solution, we have numerous reference projects showcasing our expertise and successful implementations.

Flush Deck Design

Always foldable to ensure a seamless and flush deck, enhancing both aesthetics and functionality.

Best Materials

Constructed from aluminum for superior stiffness and minimal bouncing, providing a stable and secure boarding experience.

Boarding Ladders & Swim Stairs

Akerboom's boarding ladders and swim stairs are versatile, offering multiple configurations and styles to fit seamlessly with any yacht's architecture and enhance the boarding experience.

Proven Reliability

Crafted using reliable and proven technology, our boarding ladders and swim stairs deliver consistent and dependable performance in every use.

Custom Construction

Each ladder and stair is custom built from standard modules, allowing for tailored solutions that meet the specific needs of each yacht while maintaining high-quality standards.

Innovative Design

Our boarding ladders and swim stairs feature innovative designs that prioritize safety, ease of use, and aesthetic integration with the yacht's overall design.

Platforms & Doors & Hatches

Akerboom's Platforms, Doors & Hatches are meticulously designed to blend seamlessly with the yacht's architecture, delivering both high functionality and visual harmony.

Cranes & Specials

Akerboom's Cranes & Specials are uniquely crafted one-offs, showcasing our ability to deliver bespoke, innovative solutions tailored to the specific needs and visions of each yacht.

Innovation Report

nr. 12024

**Innovation is the
heartbeat of Akerboom
Yacht Equipment,
driving us to
continually enhance
our bespoke yacht
solutions with cutting-
edge design and
advanced
customization.**

COMPANY INFO 2025

AKERBOOM@AYEHOLLAND.NL

Our latest innovation, a wireless remote control with integrated display, provides live system status, movement angles, and clear safety diagnostics—all in a single, easy-to-read interface.

All of this comes together in the advanced platform drive system. Inspired by larger beach clubs and seamless indoor-outdoor living, we've designed this solution for smooth, precise movement and optimal user experience.

Expert Engineers

Our team of over 110 includes 20 skilled design engineers, 30 certified welders, and 40 mechanical engineers, ensuring top-tier expertise and precision in every project.

In-house Training

We provide comprehensive in-house training, with new recruits working four days and studying one day a week, guaranteeing 100% job placement upon graduation.

Global Service

With service locations in Barcelona and West Palm Beach, our locally trained mechanical engineers offer exceptional maintenance and support for Akerboom equipment worldwide.

Long-standing Expertise

50% of our production team started through our rigorous in-house training program, embodying our commitment to cultivating long-term craftsmanship and innovation.
